

As a new data analyst in Home Luxury Kitchen, a company that sells Kitchen equipment. You have been given a dataset containing data from 2019 to 2022, the sales manager wants you to create a dashboard that summaries the sales for 2022 only.

You are requested not to use Pivot Table to create the dashboard

# The Road Map:

1. Use Excel functions and formulars

2. Select a whole range or turn your data into a table

3. Pretend to be the owner of the business

4. Make it simple

5. Make recommendation for the business
